1	From the documents available from the link shared i.e. Invitation for Proposals and the Country Program Document, it is not clear if UNFPA is focusing on particular geographical areas in Somalia or if any district is eligible. We are also interested to know if there is any budget ceiling.	No particular geographical areas are determined at this stage. Usually, intervention areas are decided in consultation with the Government of Somalia. The primary purpose of this Invitation is "to identify eligible non-governmental organizations (national and international) for prospective partnership with UNFPA Somalia to support achievement of results outlined in the Country Programme Document 2018-2020 and section 1.3" of the Invitation. The financial ceilings for the entire Country Programme 2018-2020, per thematic area, are indicated on Annex 1 (available for download on the website of the Invitation).
